[USING TABLES, GRAPHS, IMAGES, AND APPENDICES](#)

Use Appendix A, Appendix B, Appendix C and so on to give them a proper ordering if you have to create more than one appendix. If you want to use numbers, write them like Appendix 1, Appendix 2, Appendix 3 and so on. Whichever ordering style you use, i.e. letters or number, make sure to use it consistently.

Add your appendix immediately following your reference pages and label it as Appendix A, B, C, etc. Use these labels when discussing the appendix in the body of your paper. In the paper, after the sentence in which you are referencing your appendix, format the in-text citation as (See Appendix A). The letter should match the appropriate appendix label. Do not cite your own appendix on the ...

Each of these line graphs shows a change in data over time. A line graph is useful for displaying data or information that changes continuously over time. Another name for a line graph is a line chart. The graph below will be used to help us define the parts of a line graph. Let's define the various parts of a line graph.

The appendix of a business plan is usually the last section to appear in the business plan. Although not required, a well-structured appendix can go a long way toward convincing your reader you've got a great business idea, or indeed that you have thoroughly thought through your idea.. The appendix of a business plan is the place to include any additional documents that you want to use to ...

Line charts can display continuous data over time, set against a common scale, and are therefore ideal for showing trends in data at equal intervals or over time. In a line chart, category data is distributed evenly along the horizontal axis, and all value data is distributed evenly along the vertical axis. As a general rule, use a line chart if your data has non-numeric x values — for ...

In this appendix we give detailed examples of creating graphs from web documents. We show several web documents, including their HTML source and view when rendered in a web browser. We also show the resulting graphs that can be created from the web page content. The documents, which are taken from the University of South Florida web site, are:

Line Graph What is a Line Graph? A line graph, also known as a line chart, is a type of chart used to visualize the value of something over time. For example, a finance department may plot the change in the amount of cash the company has on hand over time. The line graph consists of a horizontal x-axis and a vertical y-axis. Most line graphs ...

What does Appendix mean? On the other hand, appendix is additional information apart from the main text that is supplementary in nature and is not stand alone. When comparing the definition of an annex with that of the appendix, one can say that an annex can be classified as an appendix, but an appendix can never be called an annex.
