Getting it's name from the Windsor engine plant, the 351W is a favorite among Ford enthusiasts. Often mistaken for a 289 or 302, the Windsor features an entirely different block which is much stouter and has a taller deck height. While the heads will interchange with other small block Ford engines, the 351W requires a unique intake manifold. Our award winning techs can help you get the right ...

All Kodiak marine engines come standard with a closed cooling system. Kodiak engines use the GM Marine Engine Fuel Injection (MEFI) engine control module (ECM). The MEFI ECM brings automotive reliability, low emissions and fuel savings to the marine sport engine. The MEFI ECM allows the use of electronic throttles and advanced user features. Smart start means the starter will not engage a ...

[Carburetor. marine for Ford 351 & GM 350. PCM - Nautique Parts](#)

Originally introduced as a high performance engine, upgraded from the Windsor family, the 351 Cleveland featured bigger and heavier blocks as well as ease of manufacture and improved reliability. The 351C small block V8 was clearly a popular choice for builders of street rods and race cars of multiple variants. Whether you're in need of a radiator for that one-off custom build or just need a ...

Our 351 Windsor Long Block Crate Engine is on sale. This popular 5.8 liter has one of the longest production runs of any Ford engine today lasting three decades, through the 70s, 80s and 90s. Not to be confused with a rebuilt 351W, our XP1 series has been completely remanufactured with upgraded parts specifically designed to increase the engines longevity. Whether you're doing a 351 Windsor ...

[A Guide To Ford V8 Engine Block Casting Numbers, 1952-1996](#)

The Ford 351 Windsor was first introduced in 1969 and was quite a breakthrough in regards to the ways Ford produced its V8 engines. When Ford introduced the 302 to replace the 289 the engines were very similar and even used the same pistons.. The 351 Windsor was in a league of its own because of its heightened deck block, larger connecting rods and much "beefier" main bearing caps.

[ford 351 marine pump | eBay](#)

Produced from 1969 to 1996, the Ford 251 Windsor was based on the smaller 302 engine design and was originally intended for use in passenger cars. In following years, the 351 was added to trucks, and versions were installed as marine engines as well. Several design changes took place during their production that were meant to improve the engine's efficiency and performance as well as reduce ...

[Ford V8 302/351 CID - Pleasurecraft Exhaust - Exhaust...](#)

I'm wondering if the Ford 351 parts are equivalent to some, if not many, of the parts on the 351 Pleasurecraft Marine (mine is model number PL0WR110)? I need to get points, condenser, rotor, and distributor cap for it. Oh, what Ford is it equivalent to? Back in my motor-head days, there was a 351 Cleveland and a 351 Windsor. Is the 351 in my boat a knock-off of either?
