[MCQs in Paediatrics - Google Books](#)

correct answer is Option (C), B 12. Because vitamin B 12, or cyanocobalamin, is mainly found in animal products, individuals who follow a strict vegan diet commonly have deficiency of this nutrient. In breast- feeding mothers who follow a vegan diet, the breast milk supply is likely to reflect this deficiency. Because the patient described is breast-fed and his mother follows a vegan diet, he ...
