[The Secret Of Light Walter Russell](#)

Walter Russell accessed an extensive amount of knowledge and insights during his mystical awakening. He wrote extensively about his understandings and related scientific, philosophical, and metaphysical subjects. In this book, he talks about the nature of creation, light, life, polarity, balance, electricity, gravity, radiation, waves & vibration, and the imagination and thought projections of the Creator. These are truly some weighty topics, but Walter's text is clear and informative, even ...

Written by Walter Russell: The Secret of Light – Chapter XII. Light cannot be seen, it can only be known. Light is still. The sense of sight cannot respond to stillness. That which the eyes "feel" and believe to be Light is but wave motion simulating the idea of Light. Like all things else in this electric wave universe the idea of Light cannot be produced. Electric waves simulate idea ...
