Analiese Richard seeks to determine what the growth of NGOs means for the future of citizenship and activism in neoliberal democracies, where a widening chasm between rich and poor threatens democratic ideals and institutions. Analyzing the growth of NGOs in Tulancingo, Hidalgo, from the 1970s to the present, The Unsettled Sector explores the NGOs' evolving network of relationships with donors ...

"The Unsettled Sector reveals the complex impact of neoliberal implementation on NGOs and the ambiguities and dilemmas they face. Richard carefully incorporates historical and cultural perspectives embodied in the Mexican context, but her analysis is also extremely pertinent to countries in which 'activism is dismissed as uncivil while charity stands in for democratic citizenship.'"--Evelina Dagnino "University of Campinas, Brazil "

In late twentieth century Mexico, the NGO boom was hailed as an harbinger of social change and democratic transition, with NGOs poised to transform the relationship between states and civil society on a global scale. And yet, great as the expectations were for NGOs to empower the poor and disenfranchised, their work is rooted in much older civic and cultural traditions. Arguably, they are just ...

Sector analysis is an investment assessment technique in which investors group companies that perform similar functions within the economy into sectors when analyzing potential stocks. The idea behind this mode of thinking is that stocks within a certain business type will tend to rise and fall along with the performance of the sector. Investors may break the sectors down into general groups ...

Directed by Josh Ridgway. With Lance Henriksen, Eric Roberts, Richard Tyson, Vernon Wells. In a dystopian world, a bounty hunter sets out to capture a ruthless band of outlaws who have kidnapped an important father and daughter through a world of multiverses. Unbeknownst to the Outlaws and the Bounty Hunter is that another, more powerful man known only as The Finisher has plans of his own.

In any given year, one sector may outperform another. For example, in 2017, technology rose 34%, while energy fell -1%. 3. Successful sector investing depends on an individual's ability to consistently and accurately determine when to rotate in and out of the various sectors, which may be a challenge for most investors.
